A+	Above 75 kgs/person
A	50-74 kgs/person
B+	40-49 kgs/person
B	30-39 kgs/person
C	Under 30 kgs/person

MESSAGE FROM MPSC

Manitoba's community recycling programs hit new heights this past year with over 71,000 metric tonnes of packaging and printed material being recycled instead of disposed in landfill.

Congratulations to everyone who played a role in this success, especially the residents of communities across the province who continue to demonstrate their strong commitment to the environmental and economic benefits of efficient and effective recycling.

As you may be aware, MPSC is no longer in operation. In this final message, I just want to say **thank you** for your commitment to recycling and reducing waste in your community and best of luck as you continue forward in partnership with the new industry-led packaging and printed material stewardship model.

Jim Fogg, General Manager
 Manitoba Product Stewardship Corporation

2010 COMMUNITY RECYCLING REPORT CON'T
